--	--------------

All departments have kept within their budgets as far as was possible.

The town voted last March, as has been the custom for several years, that the Selectmen use their judgment in using the over estimate from Excise Taxes collected, for any appropriation accounts which, in their judgment, require the same.

This year the Excise Tax money collected was \$43,209.70, which is \$4,538.05 more than last year. The town voted to estimate \$32,000.00 to take from Excise Taxes instead of \$30,000.00 voted to estimate in 1964. It was possible to clear all of the overdraft accounts and carry a net unexpended balance of Excise Tax money to Summary in the amount of \$8,508.61.

Total credits to Surplus Account was \$46,185.56 (payments on notes \$15,838.94; Supplemental Taxes collected \$1,097.38; 1965 Overlay \$2,770.10; and over estimate on Excise Taxes \$8,508.61; Net unexpended balances \$17,970.53).

Total additions to Surplus Account was \$23,524.92 (new Fire Truck Note \$16,220.20; old Lien charged off \$290.25; old Accounts Receivable charged off \$1,682.47; State Aid Road Note \$5,332.00).

The 1965 Tax Balance at the close of the fiscal year was \$28,302.78, which is \$2,867.52 more than last year. The tax commitment was \$440,703.25.

## Letter of Transmittal

To the Selectmen and Citizens of Pittsfield:

It is a pleasure for me to submit to you this annual report of the business affairs of the town of Pittsfield for the fiscal year ending January 31, 1966.

The books closed with an unappropriated surplus of \$11,174.66, a number of unexpended balances and an increase in Excise Taxes accounted for most of it. This is a step toward sound economy for the town, and could help keep an even tax base if some unexpected expense comes up.

Repairs to West Street Sewer, the building of North Main Street, the Pooler Road, the Powers Road, and repairing water mains on West and Drake Streets were conducted during the year.

The Selectmen met for twelve regular meeting and eight special meetings, during the year and two meetings with the budget committee.

I would value your thoughts on betterment of town government at any time. Also the town books are available for your inspection, as the tax payer should be made aware of the services received for the tax dollar.

It has been a pleasure working with the Selectmen, the Department heads, and employees of the town. I thank you for your assistance.

Very truly yours,

JAMES E. HANNIGAN

Town Manager

## Enrollment on January 1, 1966

Elementary:										Spec. Class	Total											
Sub.		1	2	3	4	5	6	7	8													
Prim.																						
Manson																						
Park		91	97								188											
Grammar			102	85						9	196											
Vickery					99	94	97	93	84		467											
											<hr/>	851										

Elementary pupil enrollment for September was 839. This was an increase of 34 from the previous year. Enrollments have generally been increasing over the years. We will need an additional grade 3 next September in order to take care of the increasing enrollment.

Students in Kindergarten and grade 1 attend Manson Park, grades 2 and 3 attend Grammar School, and grades 4 through 8 attend the Vickery School. The much needed new wing at the Vickery School is working out very well by taking care of grades 4 and 5. At present, we have four classes each of Kindergarten through grade 2, three classes each of grades 3 through 8, and one special class.

## Secondary:

	9	10	11	12	Total
Maine Central Institute	73	68	67	57	265
Hartland Academy	1		3	1	5
Higgins Classical Institute			1	1	2
Lee Academy			1		1
Waterville High School		1			1
John Bapst			1		1
Newport High School			1		1
Totals	74	69	74	59	276

Secondary pupil enrollment for September was 282. This was a decrease of 19 students from the previous year. This was due mainly to a graduating class of 82 while the current freshman class has an enrollment of 74. The 1965-66 tuition at M. C. I. is \$625 per student. Projected enrollment for next September is

approximately 301; an increase of 19 students from this past September.

The new Vickery addition was ready for use at the start of school this past September. Your teachers and school officials wish to express their appreciation to the citizens for approving the construction of this much needed addition. We would also like to especially thank the men who worked on the construction and the local building contractor—The Cianchette Brothers, Inc.—for their excellent job and having the building ready by the opening of school.

The school lunch program, headed by Mrs. Evelyn Frederick, operated at the Lancey Street School until November, it was then moved into its present local at the Vickery School. The new kitchen equipment has helped to further improve the lunch program and the gymnasium proves to be a more pleasant place for lunch. Well over 50% of the students participate in the hot lunch program, while milk is available for cold lunch students.

Additional fencing material was added to the fire escape at the Grammar School for a safety precaution. A steel fence was installed around the playground area at the Grammar School.

The Vickery and Grammar School playground areas received a coat of hot top. New playground equipment was added to both playgrounds at Grammar and Manson Park.

A summer Head-Start Program was in operation this past summer financed by the Federal Government. 30 students took part in the program which was directed by Mrs. Virginia Auger. These students were given the opportunity to experience general education before entering regular Kindergarten classes.

The usual repainting of some classrooms and general maintenance was carried on during the summer months. New lavatories were installed at Manson Park along with additional drinking fountains. Also a sink was installed in one of the kindergarten classrooms.

Mrs. Phyllis Fernald has been employed as Elemen-

tary Supervisor to aid the teachers in classroom instruction and co-ordinating the over-all teaching program. Instruction and curriculum are the center of any school program. The school, community and home should always strive together to offer the best educational program possible to its youth.

"Modern Math" was introduced into the curriculum last September. This is a national trend in our schools today. Modern Math is simply a new approach to the ancient science of math.

### RECOMMENDATIONS

Repairs and improvements to the building and grounds are always necessary each year in order to maintain adequate facilities for learning.

### MANSON PARK

The roof on the Manson Park building has been leaking each winter and is in need of repair. The classroom ceilings also need to be repaired. Improvements in the water drainage is badly needed at Manson Park. This problem should be studied to see what should be done for adequate drainage.

### GRAMMAR SCHOOL

The blackboards in three of the rooms at the Grammar School need to be replaced. One classroom needs new student desks. Additional hot top could be used on the playground area. Window frames and casings in the old section of the building are in poor condition and need attention. The tile floor in the boys basement should be replaced.

### VICKERY SCHOOL

The Vickery Building is in good condition. Some ceilings are in need of minor repair. An outside incinerator is needed, the fire box of the boiler needs to be re-bricked, and two outside metal doors are needed in the gymnasium.

Three of the buses are 1957 and the other is a 1958 model. These buses have served us well, but are old

and therefore need to be replaced. It is recommended that we replace these buses this September in order to provide reliable and safe transportation for our students.

A recent National survey indicated many students are in need of additional instruction in reading. Educators generally recommend having one reading teacher for every 300 students. We should start with employing one reading teacher this September.

### SCHOOL ADMINISTRATIVE DISTRICT NO. 53

On February 8, 1966 S. A. D. No. 53 officially was put into operation. There will be many problems to solve in our new district in order to provide improved education for the students. Support your district, as you have shown in the past and everyone will be in a better position to offer the much wanted and needed education for your boys and girls.

Some areas for further study within the School District should include:

- (1) The building needs in the three towns.
- (2) A study should be made as to location of elementary grades from Burnham and Detroit for educational purposes.
- (3) A Junior High School Building Program.
- (4) Additional Personnel needed for the Junior High School Program.
  - (a) Recommended that we employ a full-time principal for Vickery School next September. This person might then be the new Junior High Principal.
- (5) A Curriculum study for a Junior High Program that is well coordinated with Maine Central Institute and other High Schools within the State.

In closing, I wish to thank the teachers, the Superintending School Committee, Mr. William Springer and Mr. Donald Holsapple, and citizens of Pittsfield for their consideration and cooperation.

Respectfully submitted,

CHARLES M. CASEY

Superintendent of Schools

## The Manson Park Fund

To the Inhabitants of the Town of Pittsfield:

I have examined the accounts of Kilborn H. Merrill, Treasurer of the Mary Ann Lancey Manson Park Fund for the year ended February 1, 1966.

This fund is derived from income received from a trust fund held by the Canal National Bank of Portland, Trustee, which fund was set up by the late John W. Manson, with instructions that three quarters of the income to be paid to the Town of Pittsfield for maintenance of the Mary Ann Lancey Manson Park, and that one quarter to be paid to Maine Central Institute.

The income received by the town shall be administered by a Board of Trustees appointed by the town, which board shall appoint a Treasurer and all income from any source shall be kept separate from any town funds.

My examination of the records indicated that the total receipts for the year were \$13,040.93 while expenditures amounted to \$14,190.57. Each item of receipts and expenditures were checked and the balance in the Treasurer's hands is supported as follows:

Checking—Reconciled with the depository bank.

Savings Account—Reconciled with the depository bank.

In my opinion the attached analysis of income and expense is correct.

Respectfully submitted,

HENRY A. McCREADY

## Report of Budget Committee

The Budget Committee met with the Selectmen and Town Manager on January 20th and February 10th, 1966.

Many items that have a set standard figure for the General Administration of town government were recommended with a minimum of time and discussion.

Items of larger amounts and of a controversial nature were discussed with both the interest of the tax rate and the services to be offered to the tax payer being considered.

Total recommended for 1966-67 was \$190,085.00. This is \$4,095.00 less than last year.

### FOR COMPARISON

Selectmen of Pittsfield, Maine

To inhabitants of the Town of Pittsfield:

Your attention is called to new and revised laws enacted by the 102nd Legislature.

Due to limited space only those that will affect most of you are being summarized at this time. The Title, Chapter and Section numbers are being given but exact wording has been substituted by a general meaning of these laws.

**Title 12, Chapter 215, Sub-Chapter 5, Section 1355**

This law states that any town allowing dumping to continue on town dumps closed by the State because they do not meet clearance regulations will lose the town's right to State reimbursement of  $\frac{1}{2}$  the costs of control of any escape fire from this dump during time of closure. This is up to 1% of state's valuation of town.

**Title 12, Chapter 215, Sub-Chapter 7, Section 1456-A**

This states **no equipment** for producing power shall be operated in or near woodlands **without approved spark arresters or mufflers**. This applies to chain saws, tractors, either manufactured or home-made, or other equipment.

**Title 12, Chapter 215, Sub-Chapter 11, Section 1653**

Any person who willfully or negligently causes a fire which burns forest, brush, grass or other lands or who fails to take proper action to control a fire on his own land shall be **liable to the state or town for up to \$500.00** of the suppression costs.

**Title 25, Chapter 317, Section 2436-A**

This sets up control of debris burning when the **ground is not covered with snow**. Debris may be burned out of doors only between the hours of 5:00 p. m. and 12:00 midnight unless you have an approved incinerator or a special burning permit from your Town Warden or Fire Chief. Incinerator approval may be obtained from your Fire Chief. To meet approval incinerators must be tight containers with 1" holes for draft not more than a foot from bottom of container. Top must be tightly covered while burning with mesh or

equivalent with holes  $\frac{1}{2}$ " or smaller. Incinerator is to be set in center of circle 10 ft. in diameter cleared to mineral soil. Pressurized cans shall not be burned and fire shall not be left unattended.

NOTE: This law applies only to debris burning. Permits for burning slash, brush, blueberry land or fields of dry grass must be obtained for any time of day.

Questions on these laws may be answered by your Town Forest Fire Warden, Fire Chief or at the nearest Forest Ranger Station.

SUGGESTION: HAUL, OR HAVE HAULED, DEBRIS TO TOWN DUMP. Old automobiles and animal refuse exempted.

SLASH DEFINED: Slash is defined as branches, bark, tops, chunks, cull logs, uprooted stumps and broken or uprooted trees and shrubs left on ground as a result of logging, right of way construction or maintenance and land clearance.

DEBRIS is any manufactured product, household rubbish, hay or other vegetative accumulations or materials not included under slash.

If any resident owner, after such notice, or any non-resident owner after being reasonably requested thereto by the Assessors, does not bring in such lists, he is thereby barred of his right to make application to the Assessors or the County Commissioners for any abatement of his taxes, unless he offers such list with his application and satisfies them that he was unable to offer it at the time appointed. The request upon non-resident owners may be proved by notice sent by mail directed to the last known address of the taxpayer or given by any other method that brings notice home to the taxpayer.

## A Glance At 1966 Activities

The Municipal year closed with a Cash Balance on hand in the amount of \$62,387.93, which is \$3,220.18 less than at the close of the books last year.

Last year \$23,748.24 was carried forward to this year's work in unexpended balances; this year there is a balance of \$5,889.54 in unexpended balances to be carried forward to 1967-68 work.

Of the Cash Balance on hand the following is "ear-marked" for the 1967-68 work as follows:

Gasoline Account	\$ 210.08
Fire Ponds	155.50
Purchase C. D. Supplies	804.00
Aid to Dependent Children	728.54
Sidewalk Construction	408.93
Leighton Street Construction	90.46
Tree Care and Planting	514.23
Dutch Elm Disease	423.27
Development Cemetery Land	93.20
Income Account—	
George M. Parks Trust	852.52
Social Security	1,608.81

	\$5,889.54
	<hr/>

All departments have kept within their budgets as far as was possible.

The town voted last March, as has been the custom for several years, that the Selectmen use their judgment in using the over estimate from Excise Taxes collected for any appropriation accounts which, in their judgment, require the same.

This year the Excise Tax money collected was \$43,540.26, which is \$330.56 more than last year. The Town voted to estimate \$35,000.00 to take from Excise Taxes instead of \$32,000.00 voted to estimate in 1965. It was possible, however, to clear all of the overdraft accounts and carry a net unexpended balance of Excise Tax money to Summary in the amount of \$2,022.18.

Total credits to Surplus Account were \$38,891.53 (payments on notes \$19,486.00; Supplemental Taxes collected \$1,522.85; net 1966 Overlay (after deducting abatements) \$2,315.72; net unexpended departmental balances \$13,544.78; and over estimate on Excise Taxes \$2,022.18.)

The 1966 Tax Balance at the close of the fiscal year was \$30,583.94, which is \$2,281.16 more than last year. The Tax Commitment was \$418,504.63.

The largest factor causing the tax balance to be larger than last year, is the fact that due to illness it was impossible for the Tax Collector to send out Tax Statements before the books closed.

## Letter of Transmittal

To The Selectmen and Citizens of Pittsfield:

It is again a pleasure for me to submit to you this annual report of the business transacted for the town for the fiscal year ending January 31, 1967.

The books closed with an unappropriated surplus of \$50,066.19 the increase accounted for by unexpended balances carried forward, the overlay, Excise tax over estimate, supplemental taxes, and a reduction of long term debt. The selectmen and budget committee have recommended that up to \$20,000.00 of this account be used to purchase needed equipment for the Town, namely; a backhoe, a pickup and a sidewalk plow. This will leave a good balance that could be used in a year that it is needed to hold a fairly even tax rate.

The Selectmen met for twelve regular meetings, three special meetings, three with the Planning Board, and two with the Budget Committee.

The new Town Garage, on Waverly Avenue, is in use. You are invited to drop in and look around. Street signs have been installed. Assistance given by the Jaycees was very much appreciated. New sidewalks were built on School Street and Central Street, and others were repaired. It is hoped to expand this program during the coming year.

The Water Company has installed a number of new meters, new services and renewed old ones. Water billing is now being done by machine.

New thoughts on modernizing your Town Government are being presented to you. It is hoped that you will consider it as necessary to accept them as it is to improve your home or business.

It has again been a pleasure working with you, the Selectmen, the taxpayers, the department heads, and the employees of the Town. I thank you for your assistance.

Very truly yours,  
JAMES E. HANNIGAN  
Town Manager

February 13, 1967

To the Inhabitants of the Town of Pittsfield:

In accordance with the request of your Municipal Officers, I have completed examination of the accounts of your town officials for the year ended February 1, 1967.

## COMMENTS

### CASH

Cash for all receipts was recorded and promptly deposited in the bank. The source of this income is summarized in Exhibit B.

All expenditures were made by check from properly authorized warrants, supported by invoices and payrolls on file, and summarized in Exhibit D.

The cash balance was reconciled with the bank statement dated February 1, 1967 as shown in Schedule 1.

### TAXES—Property, Poll, Excise and Tax Liens

The 1966 Tax Commitment was found to be in agreement with the records of the Assessors. Collections of the property, poll and supplemental taxes amounted to .927% of the total. Excise Taxes amounted to \$43,540.26.

### TRUST FUNDS

The investments covering all trust funds were verified at the First National Bank of Pittsfield. A complete list of these investments is shown on Schedule 6.

### SURPLUS

The net surplus was increased during the year by \$38,891.53, making a net surplus of \$50,066.19.

### GENERAL

This audit was made to conform with the rulings and suggestions of the Maine State Department of Audit in Augusta.

In view of the fact that there was a great deal of sickness with the town office personnel, the records were found to be very accurate, except for one minor adjustment of \$77.24, which will be made in the current year to correspond with the reconciliation of the bank statement.

Respectfully submitted,

Public Accountant

## The Manson Park Fund

Pittsfield, Maine

February 13, 1967

To the Inhabitants of the Town of Pittsfield:

I have examined the accounts of Kilborn H. Merrill, Treasurer of the Mary Ann Lancey Manson Park Fund for the year ended February 1, 1967.

This fund is derived from income received from a trust fund held by the Canal National Bank of Portland, Trustee, which fund was set up by the late John W. Manson, with instructions that three quarters of the income to be paid to the Town of Pittsfield for maintenance of the Mary Ann Lancey Manson Park, and that one quarter to be paid to Maine Central Institute.

The income received by the town shall be administered by a Board of Trustees appointed by the town, which board shall appoint a Treasurer and all income from any source shall be kept separate from any town funds.

My examination of the records indicated that the total receipts for the year were \$13,872.26 while expenditures amounted to \$9,620.07. Each item of receipts and expenditures were checked and the balance in the Treasurer's hands is supported as follows:

Checking—Reconciled with the depository bank.

Savings Account—Reconciled with the depository bank.

In my opinion the attached analysis of income and expense is correct.

Respectfully submitted,

HENRY A. McCREADY

Public Accountant

## Report of Budget Committee

The Budget Committee met with the Selectmen and Town Manager on January 25th and February 8th, 1967.

Increases were recommended in General Government, Protection (Fire and Police), Public Health, Recreation and Unclassified.

Decreases were recommended in Sewers, Care of the Poor, Highways and Debt and Interest.

New recommendations for a part time Recreation Director and repairs to the Library, combined with the above made a total recommended of \$184,601.96 for a decrease of \$5,483.00.

### FOR COMPARISON

1966-67		1967-68	
Appropriated	\$190,584.99	Recommended	\$184,601.96
Schools	244,622.43	Schools	274,552.33
County Tax	13,360.00	Est. County Tax	13,500.00
	<hr/>		<hr/>
	\$448,567.42		\$472,654.29
Less Estimate	35,000.00	Less Estimate	35,000.00
	<hr/>		<hr/>
	\$413,567.42		\$437,654.29

These recommendations combined with the school district and county assessment indicate an approximate increase of \$24,000. It is hoped that the increase in taxable property will be enough to keep the tax rate at about the same level, or at least a one or two unit increase.

The request upon non-resident owners may be proved by notice sent by mail directed to the last known address of the taxpayer or given by any other method that brings notice home to the taxpayer.
